

# ENROLL US!

We Want to Be a Partner in EPA's  
National Partnership for Environmental Priorities

## GENERAL INFORMATION

Name of Organization: 139<sup>th</sup> Airlift Wing Facility Name: Rosencrans Airport  
Principal Contact: Grace Link Title: Environmental Manager  
Facility Location: \_\_\_\_\_ City/State/Zip: \_\_\_\_\_  
Address: 705 Memorial Drive City/State/Zip: St. Joseph, MO 64503-9307  
Phone: (816) 236-3604 Fax: (816) 236-3022  
Email: grace.link@mostjo.ang.af.mil EPA RCRA ID Number: MO2572890026

## PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

**GOAL #1. Chemical Name:** Chromium **CASRN:** 7440-47-3  
Narrative description of proposed project and the method we will use to measure success: \_\_\_\_\_

To reduce the amount of chromium in our aircraft maintenance operations. We plan to accomplish this by partnering with the Missouri Department of Natural Resources and conducting a pollution prevention assessment in January. That assessment should identify opportunities to reduce the chromium in our waste streams. Success will be measured by the reduction in chromium waste achieved.

1. Our voluntary source reduction goal for Chemical #1 is to reduce the amount of this chemical generated from a baseline amount of 828 pounds generated in January, 2005 (month/year) to a reduced amount of 200 pounds generated by December, 2005 (month/year).

2. To accomplish this goal, we will explore the following source reduction options (check all that apply):  
☒ Equipment or technology modifications. ☒ Process or procedure modifications.  
☒ Reformulation or redesign of products. ☒ Substitution of less toxic raw materials.  
☒ Improvements in inventory control. ☒ Improvements in maintenance/housekeeping practices.  
\_\_\_\_\_ Other (explain): \_\_\_\_\_

3. Our (optional) voluntary recycling or recovery goal for Chemical #1 is to increase the amount of this chemical recycled or recovered from a baseline amount of \_\_\_\_\_ pounds in \_\_\_\_\_ (month/year) to an increased quantity of \_\_\_\_\_ pounds by \_\_\_\_\_ (month/year).

4. To accomplish this recycling or recovery goal, we will explore the following options (check all that apply).  
\_\_\_\_\_ Direct use/reuse in a process to make a product.  
\_\_\_\_\_ Processing the waste to recover or regenerate a usable product.  
\_\_\_\_\_ Using/reusing waste as a substitute for a commercial product.  
\_\_\_\_\_ Other (explain): \_\_\_\_\_

Authorizing Official/Title: Stephen Cotter/Wing Commander Date: \_\_\_\_\_  
Project Contact (if different from Authorizing Official): Grace Link Phone: (816) 236-3022  
NOTE: use supplemental sheets for additional goals.

**SUPPLEMENTAL GOAL SHEET: NATIONAL PARTNERSHIP FOR ENVIRONMENTAL PRIORITIES**

**GOAL # 2 . Chemical Name:** Methyl Ethyl Ketone (MEK) **CASRN:** 78-93-3

Narrative description of proposed project and the method we will use to measure success: \_\_\_\_\_

\_\_\_\_\_  
To reduce the amount of MEK in all sealant and painting operations.

1. Our voluntary source reduction goal for Chemical # 2 is to reduce the amount of this chemical generated from a baseline amount of 569 pounds generated in January, 2005 (month/year) to a reduced amount of 160 pounds generated by December, 2005 (month/year).

2. To accomplish this goal, we will explore the following source reduction options (check all that apply):

<input checked="" type="checkbox"/> Equipment or technology modifications.	<input checked="" type="checkbox"/> Process or procedure modifications.
<input checked="" type="checkbox"/> Reformulation or redesign of products.	<input checked="" type="checkbox"/> Substitution of less toxic raw materials.
<input type="checkbox"/> Improvements in inventory control.	<input type="checkbox"/> Improvements in maintenance/housekeeping practices.
<input type="checkbox"/> Other (explain): _____	

3. Our (optional) voluntary recycling or recovery goal for Chemical # \_\_\_\_ is to increase the amount of this chemical recycled or recovered from a baseline amount of \_\_\_\_\_ pounds in \_\_\_\_\_ (month/year) to an increased quantity of \_\_\_\_\_ pounds by \_\_\_\_\_ (month/year).

4. To accomplish this recycling or recovery goal, we will explore the following options (check all that apply).

☐ Direct use/reuse in a process to make a product.  
☐ Processing the waste to recover or regenerate a usable product.  
☐ Using/reusing waste as a substitute for a commercial product.  
☐ Other (explain): \_\_\_\_\_

\*\*\*\*\*

**GOAL # \_\_\_\_ . Chemical Name:** \_\_\_\_\_ **CASRN:** \_\_\_\_\_

Narrative description of proposed project and the method we will use to measure success: \_\_\_\_\_

1. Our voluntary source reduction goal for Chemical #1 is to reduce the amount of this chemical generated from a baseline amount of \_\_\_\_\_ pounds generated in \_\_\_\_\_ (month/year) to a reduced amount of \_\_\_\_\_ pounds generated by \_\_\_\_\_ (month/year).

2. To accomplish this goal, we will explore the following source reduction options (check all that apply):

<input type="checkbox"/> Equipment or technology modifications.	<input type="checkbox"/> Process or procedure modifications.
<input type="checkbox"/> Reformulation or redesign of products.	<input type="checkbox"/> Substitution of less toxic raw materials.
<input type="checkbox"/> Improvements in inventory control.	<input type="checkbox"/> Improvements in maintenance/housekeeping practices.
<input type="checkbox"/> Other (explain): _____	

3. Our (optional) voluntary recycling or recovery goal for Chemical # \_\_\_\_ is to increase the amount of this chemical recycled or recovered from a baseline amount of \_\_\_\_\_ pounds in \_\_\_\_\_ (month/year) to an increased quantity of \_\_\_\_\_ pounds by \_\_\_\_\_ (month/year).

4. To accomplish this recycling or recovery goal, we will explore the following options (check all that apply).

☐ Direct use/reuse in a process to make a product.  
☐ Processing the waste to recover or regenerate a usable product.  
☐ Using/reusing waste as a substitute for a commercial product.  
☐ Other (explain): \_\_\_\_\_
